About

With 6 years of professional development experience in JavaScript, Lua, I also bring a decade of hobbyist expertise in C#, C++, and PHP, largely in the emulation sector with contributions to the TrinityCore project. Proficient across multiple OS, including Debian, Ubuntu, Windows Server, and MacOS. Currently advancing my knowledge at Columbia University in Data Science, after a 2021-2022 deployment, with aspirations for a high level research opportunity after graduation.

EXPERIENCE

Mar 2023 - Present

Cyber Operations Specialist

Cyber Protection Team, NY National Guard

Supports defensive cyber operations throughout the state as while in a 17C billet as a junior NCO on the Defensive Cyber Operations team. Works closely alongside senior NCOs, WOs, and Officers to develop future incident response SOPs.

2016 - Present

Freelance Developer

Freelance Developer

Worked with a multitude of New England businesses to develop websites, desktop tools, and other applications for their specific needs using primarily JavaScript, php, and Lua.

2021 - 2022

Battle Desk / S6 SPC

1-101 Field Artillery, MA National Guard

Deployed with the 1-101st FA to various locations throughout the middle east. I was in a dual-role position, with my primary duties consisting of both battle desk tasks and S6 tasks at Battalion HQ.

2020-2021

Technology Administrator

Recruiting & Retention, MA National Guard

Maintained major web presences for the MA National Guard's recruiting & retention battalion. Additionally, developer and maintained outreach programs with a focus on cybersecurity..
